

ASK

Dr. Hutton!

I try to read aloud, but my kids won't sit still for it.

HELP!

The quaint picture of all children sitting quietly for reading aloud is not the reality for many people – and that's OK! Children may be listening, absorbing, and enjoying reading aloud even while in perpetual motion. Take heart: Even jitterbugs benefit from reading aloud.

DR. JOHN S. HUTTON

Pediatrician & Research Fellow
Cincinnati Children's Hospital
